REEM '09

Implementation of Renewable Energy in the Emerging Markets of Africa, Latin America and the Caribbean

SPONSORED BY:

Center for International Trade Development

STATE OF CALIFORNIA ENERGY COMMISSION

ECONOMIC & WORKFORCE DEVELOPMENT

AUDIENCE AND SPEAKERS

Energy and technology providers (public/private sectors); investors; community implementers; policy makers from the Emerging Markets, California and the United States

CONFERENCE OBJECTIVES

What works and what doesn't? Successes, challenges and potentials for solutions with implementation of renewable energy will be discussed: policy development, regulatory environment, market incentives, technical know-how, etc..

How to get it done! Familiarize participants with strategies for sustainable RE infrastructure development: financing mechanisms for large scale installations; regulatory and policy requirements; foreign direct investment, etc.

Creating renewable energy partnerships between California/United States companies/agencies and the Emerging Markets - opportunity for one-on-one match-making.
